

Matthew Salamack

Mid-Level Software Developer

CAREER OBJECTIVE

Mid-level software developer with 2+ years of professional software development experience. I strive to develop robust technical products that are user friendly and accessible.

WORK EXPERIENCE

Software Developer I

June 2022 - Present

- **Full-Stack Development & UI/UX:** Develop and maintain pre-existing and completely new web and mobile applications using ASP.NET with Kendo UI, React, and React Native. Enhance user interfaces with HTML, CSS, Sass, and JavaScript to match client-provided UI/UX.
- **Database & Cloud Management:** Manage large-scale SQL Server databases with SSMS, develop stored procedures, and build CI/CD pipelines in Azure. Configure and handle various Azure services such as Storage Blobs, Translator Services, and B2C Custom Policies.
- **System Integration & Optimization:** Integrate external systems like Salesforce, Twilio, and Google APIs. Regularly upgrade, configure, and troubleshoot systems to improve performance and scalability.

Freelance Web Developer

March 2022 – June 2022

- Handle all verbal and written communications between myself and client.
- Review client requirements before implementation.
- Build custom websites using WordPress, HTML5, JavaScript, CSS, ReactJS.
